**NIGHTTIME STEEL WORK ON NH 101 BRIDGE IN BEDFORD**  
***EASTBOUND BRIDGE OVER US ROUTE 3***

The New Hampshire Department of Transportation announces planned nighttime structural steel work on the NH Route 101 eastbound bridge over US Route 3 in Bedford will require periodic closures of Route 3 for one night.

This steel setting work will take place the night of Sunday, April 24th from 9:00 pm through 6:00 am, weather permitting. It will require the closing of US Route 3 (South River Road) near and under the bridge for several 15 minute time periods.

This work is part of a project that is replacing both the NH Route 101 eastbound and westbound bridges over US Route 3 in Bedford. R.S. Audley Construction, of Bow, New Hampshire is the general contractor for the \$14.8 million project, which has a final completion date of June 2006.
